SCHOOL WARRANT

To the Inhabitants of the School District in the town of Hopkinton qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the fourteenth day of March, 1950, at 3:00 o'clock in the afternoon to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
6. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
7. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.
8. To see if the district will raise and appropriate a sum not to exceed \$500.00 for the making of a survey

and preparation of preliminary drawings covering the school building needs of the district.

9. To transact any other business that may legally come before said meeting.

Given under our hands at said Hopkinton this 17th day of February, 1950.

*Miss Harris resigned May 1, 1949 and Mrs. Louise Methven taught the remainder of the year.

The Parent-Teacher Association, started last year, has continued to grow under the able leadership of Dr. Howard Lightfoot. It is a thrilling experience for professional education to attend one of the P.T.A. meetings and observe the tremendous interest which the people of Hopkinton are taking in their schools. Dr. Harold Hyde of the State Department of Education, who spoke at one of the meetings, remarked about the excellent spirit of the group. He was much pleased with his reception and the discussion period which followed his talk.

The P.T.A. will complete two important projects before the close of the school year. The first one is the construction of two Jungle Gyms; one for the Hopkinton Village School and one for Contoocook Village School. The materials have been purchased and the vocational agriculture boys are assembling them. The second project has been the solicitation of money for the purchase of safety signs similar to those used in the city of Concord. The money has been collected and the signs have been ordered. The association has also gone on record as being ready to help, in any way, a very fine project which the high school youngsters are planning.

The survey of school problems started by the Planning Board has been continued as a larger committee working with the school board. I won't attempt to report on their progress because they are planning to have a special report ready for distribution at school meeting. The committee on construction has unanimously recommended that the capital reserve fund be included in the school board's budget this year.

Two teachers have been added to the teaching staff. Mrs. H. Ruth Mills is the new teacher in the first grade in the Contoocook Elementary School. Mr. Richard Mills (Betty's husband, not Ruth's) is the new Science and Math teacher at the High School.

It is very difficult for me, even now, to report the loss of Marian Kimball. I feel very inadequate to say what I would like to say in tribute to Marian. We have lost one of the outstanding teachers in the state, a public spirited citizen and a dear friend. Her passing has been a shock to all of us. The pupils in the High School are planning to set up a sort of perpetual memorial to her; they have set as their goal a scholarship fund in her memory. The P.T.A. has gone on record as being very much in favor of this plan, and I hope that every individual will have a part in this very worth-while project.

This has been a very pleasant year and I have enjoyed my association with the school board, teachers and the people of Hopkinton.

REPORT OF HEADMASTER

Contoocook, New Hampshire
December 31, 1949

To: Mr. William C. Sterling, Superintendent of Schools,
Union 26, Contoocook, New Hampshire.

I herewith submit my report for the year 1949--50
as Headmaster of Hopkinton High School.

MEMBERS OF THE CLASS OF 1949

Drusilla Bean	Gordon Harris
Arthur Brown	Lloyd Holmes
Joan Call	Donald Loughery
Roderic Call	Avis MacKenzie
Joan Coen	Judith Pendleton
Ronald Dubuc	Nina Provencher
Rita Duclos	Geraldine Smith
Lucie Hardy	Donald Symonds

Of these persons, six are furthering their education in institutions of higher learning, one is in nurses' training, five are gainfully employed, three are doing domestic work, while one is contemplating advanced study.

ENROLLMENT

The September registration showed an enrollment of 140 students in the Junior and Senior High School, with the distribution by classes as follows:

JUNIOR HIGH SCHOOL

Grade	Boys	Girls	Total
7	14	11	25
8	18	15	33
	<hr/>	<hr/>	<hr/>
	32	26	58

SENIOR HIGH SCHOOL

9	13	11	24
10	14	7	21
11	12	9	21
12	5	11	16
	<hr/>	<hr/>	<hr/>
	44	38	82

The present enrollment is an increase of nine students over that of the previous year. The increase of pupils, in all probability, shall continue for quite some time as has been shown by the recent surveys that have been conducted. For a comparison one may turn back three years to 1946, when 64 pupils were registered in the Senior High School whereas there are now 82. In the Junior High School in 1946 there were 47 pupils as against 58 in 1949. This is an increase of 29 pupils in three years. In planning for the future these factors should be considered.

Mr. Richard Mills, a graduate of Keene Teachers College with a year of graduate study at the University of New Hampshire joined the teaching staff this year. Mr. Mills is teaching courses in science and mathematics as well as coaching boys athletics.

The death of Mrs. Marian G. Kimball, a beloved teacher of Hopkinton High School has been a great shock to each and every one of us. The outstanding work she has done will live for years to come. Mrs. Kimball was a teacher and real friend to the student body. Her memory will always be dear to those for whom she gave so much.

The social activities sponsored by the High School take the form of the "extra-curricular" program or, to use a more appropriate name, the "Co-curricular" program. Because of the intense interest of most stu-

dents in social life, these co-curricular activities constitute an important part of school life. The student and faculty leaders of these various functions are to be commended for their efforts and fine results.

The School Lunch Program is in operation from November until the latter part of April under the direction of Mrs. Evelyn Rice, Home economics Teacher. This year the Program in Contoocook is being operated at the Methodist Church Vestry through arrangements made between the Trustees of the Methodist Church and the local School Board. This change has enabled us to utilize the school building to the fullest extent, which was an impossibility while the Hot Lunch Program was being operated at the High School. An average of 182 meals are served daily at the Methodist Church Vestry, while an average of 55 meals are being served at the Hopkinton Village School. To assist in the preparation of the meals, we are indeed fortunate to have the services of Mrs. Elsie Straw, Mrs. Mary Shurtleff, Mrs. Clara Ward, and Mrs. Dorothy French. I am extremely pleased that the Contoocook Woman's Club and the local P.T.A. have contributed to this program.

Since the High School is a public institution, it endeavors to serve the needs of the pupils who attend it. Not only are we concerned with mastery of academic subjects, but with social adjustment, growth in personality, moral attitudes, vocational choices, and physical development. This is indeed quite a change from the days of the "3-R's."

This High School is extremely interested in attempting to serve the needs of our youth by offering an appropriate course of study, however there may be limitations to which it can go; yet through concerted effort on the part of the faculty, students, parents, and

interested citizens the type of school which you desire may be attained.

In closing, I wish this opportunity to thank the School Board, Superintendent, faculty, parents, students, and all others for the cooperation received during the past year.

Respectfully submitted,

ELSON S. HERRICK,
Headmaster

REPORT OF THE BUILDING COMMITTEE

A careful study of the schools in Hopkinton by the Building Committee brought out the fact that the seating capacity is inadequate for the number of pupils now attending the schools. This condition will not improve as time passes.

In the Hopkinton Village school, there are thirty seats in each of the two rooms, thus making it necessary to add seats at the side aisle of the rooms. There is no space for the youngsters to move around. This is especially noticeable in the first, second, and third grade room. However, these small children do have the opportunity to use as a playroom, a small finished room on the second floor. The lighting is very poor, as the majority of the windows are on the north side of the building. The artificial lighting is not good. Hot lunch is served to the younger pupils in the basement, but it is crowded. The older pupils must carry their trays upstairs. There is no space for recreation on stormy days. This school has a good heating system.

At Contoocook grammar school, there are thirty-five seats in the fifth and sixth grades room, but practically no aisle space or room in which to move around. The first grade room has twenty-seven seats. It is a southwest room so the sun beats in all day. This results in a ventilation problem. There is little play space. The second grade room has been remodeled within the past few years. It has the best lighting of all the rooms visited, however, the committee wondered how twenty-three pupils can be seated in the twenty seats counted. There are forty seats in the third and fourth grade room. The seats are crowded together leaving no space in which to move around. The children at this school walk to the Methodist Church for their noon lunch. The boiler in this school is in good condition, but the radiators are in need of repair.

The High School building is probably in the worst condition of all the schools. The toilet facilities are antiquated. The inefficient heating system is the original system installed fifty years ago, and the boiler must be replaced. The loose windows make it a very drafty building. Two of the classes are so large that only two rooms in the building have space for them.

The elementary schools are overcrowded now, and the school census shows that this condition will become increasingly worse in the future. This may make it necessary to assign pupils to a school which they would not ordinarily attend.

In the high school there are prospects for an increased enrollment. The curriculum is already limited due to the number of classrooms, and there is a demand for a more extensive curriculum. There is need for more room to carry on specialized work.

The playground facilities are utterly inadequate. The high school uses land that does not belong to the school district. The Baptist Church is kind enough to let the school use their property.

The committee feels that it is not feasible to remodel any of the present buildings as this has been done several times; however, the advice of a competent architect would give them a better idea of what might be done along this line.

The possible solution to the problem may be one of the following:

1. Construct a building to accommodate all the pupils of the town. Such a building would cost approximately \$200,000.00 without a gymnasium, and \$300,000.00 with a gymnasium. It is advisable to bear in mind that the borrowing capacity for building a new school is \$185,000 as an absolute limit.

2. Construct an eight grade elementary school with auditorium and gymnasium.

3. Construct a high school with auditorium and gymnasium that might also include the fifth and sixth grades. This building would be planned so that it could be easily converted to an elementary school, if at any time Hopkinton joined a cooperative high school system.

Some steps must be taken immediately, or the School Board will be faced with the problem of finding space to rent in order to carry on the work of educating the children of the town. This year it was necessary to move the hot lunch from the high school to the Methodist Church basement in order to leave more room in the high school.

The committee recommends:

- a. That the Capital Reserve Fund be continued.
- b. That a committee continue these studies.

A meeting in which all the towns in this Union was represented in April, 1949 to discuss the possibilities of setting up a cooperative school district was held. There was not too much enthusiasm at this meeting. One town was satisfied with their set-up. The other large town had a favorable position which they would be reluctant to lose.

The last Legislature did not pass the recommended laws which would have aided cooperative school districts. This made it extremely difficult to set up a cooperative school district.

REPORT OF THE CURRICULUM COMMITTEE

The Curriculum Committee is not ready to make a final report although they have had quite a few meetings. After a great deal of discussion the Committee has decided to make a survey based on the following questions:

1. What has happened to our graduates of the past fifteen years?
2. Why do some of our children leave school before graduation?
3. What are the entrance requirements of the various colleges?
4. How does the curriculum of Hopkinton High School compare with that of other high schools in the state, large or small, and what is the general trend in curriculum planning?

Work has been started to see if we can find some of the answers to these questions.
